

Accident Analysis - Causal Factors and Alternate Outcomes

Field Trip time #3: The Jacksonville FAASafetyTeam is thrilled to be welcomed back by Blake Powers, owner of Florida Air Recovery. Blake and his team have firsthand knowledge of aircraft accidents, and as recovery experts, they have seen plenty. Join us for an outdoor tour of some of the wreckage that has been brought to this location, as we learn: Our tour guide will tell us about the accidents, and we'll discuss mechanical failures, human factors, the accident chain, preflight inspections, weather, possible alternate outcomes, as well as the dreaded "The pilot's failure to..."

Directions: Florida Air Recovery - 2 Miles west of KCRG. West on Atlantic Blvd, turn north on Tresca Road. Proceed north a bit, and it's on the right. Parking may be somewhat limited, so carpooling if possible is encouraged.

A message from the National FAASafetyTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
